

Applicant: Andreas SCHRADE et al.
Docket No. R.306806
Preliminary Amdt.

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1-6. (Canceled)

7. (New) A valve for controlling fluids, comprising a closing element for closing and opening an opening, a restoring element for restoring the closing element to its outset position, a movably disposed armature which is movable by means of an armature coil, and a multifunctional component which includes the function of a valve body and the function of a throttle component in a single component.
8. (New) The valve for controlling fluids in accordance with claim 7, wherein that the multifunctional component further comprises the function of a check valve.
9. (New) The valve for controlling fluids in accordance with claim 7, wherein the multifunctional component is produced by means of powder metallurgy processes.
10. (New) The valve for controlling fluids in accordance with claim 8, wherein the multifunctional component is produced by means of powder metallurgy processes.

Applicant: Andreas SCHRADE et al.
Docket No. R.306806
Preliminary Amdt.

11. **(New)** The valve for controlling fluids in accordance with claim 9, wherein the multifunctional component is produced by means of sintering.
12. **(New)** The valve for controlling fluids in accordance with claim 10, wherein the multifunctional component is produced by means of sintering.
13. **(New)** The valve for controlling fluids in accordance with claim 7, wherein the valve is used in a hydraulic system in a vehicle.
14. **(New)** The valve for controlling fluids in accordance with claim 8, wherein the valve is used in a hydraulic system in a vehicle.
15. **(New)** The valve for controlling fluids in accordance with claim 9, wherein the valve is used in a hydraulic system in a vehicle.
16. **(New)** The valve for controlling fluids in accordance with claim 10, wherein the valve is used in a hydraulic system in a vehicle.
17. **(New)** The valve for controlling fluids in accordance with claim 11, wherein the valve is used in a hydraulic system in a vehicle.

Applicant: Andreas SCHRADE et al.
Docket No. R.306806
Preliminary Amdt.

18. (New) The valve for controlling fluids in accordance with claim 12, wherein the valve is used in a hydraulic system in a vehicle.

19. (New) The valve for controlling fluids in accordance with claim 13, wherein the valve is used in a brake system and/or an electronic stability system and/or a traction control system.

20. (New) The valve for controlling fluids in accordance with claim 14, wherein the valve is used in a brake system and/or an electronic stability system and/or a traction control system.

21. (New) The valve for controlling fluids in accordance with claim 15, wherein the valve is used in a brake system and/or an electronic stability system and/or a traction control system.

22. (New) The valve for controlling fluids in accordance with claim 16, wherein the valve is used in a brake system and/or an electronic stability system and/or a traction control system.

23. (New) The valve for controlling fluids in accordance with claim 17, wherein the valve is used in a brake system and/or an electronic stability system and/or a traction control system.

Applicant: Andreas SCHRADE et al.
Docket No. R.306806
Preliminary Amdt.

24. (New) The valve for controlling fluids in accordance with claim 18, wherein the valve is used in a brake system and/or an electronic stability system and/or a traction control system.
